

Leading digital transformation at Microsoft

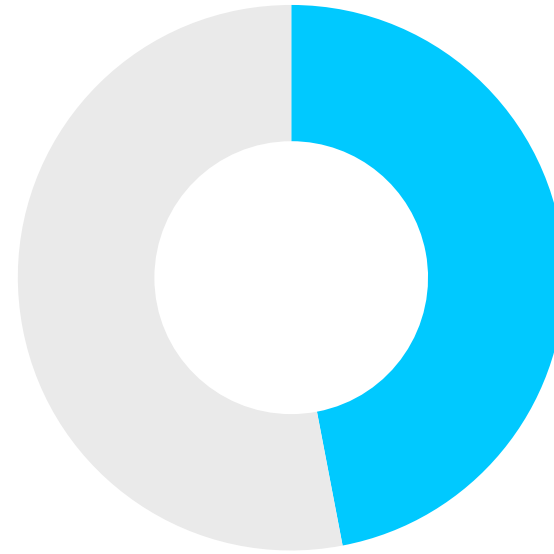

CEO pain points: Digitization

40% - 60% of IT spending is funded outside of the IT budget

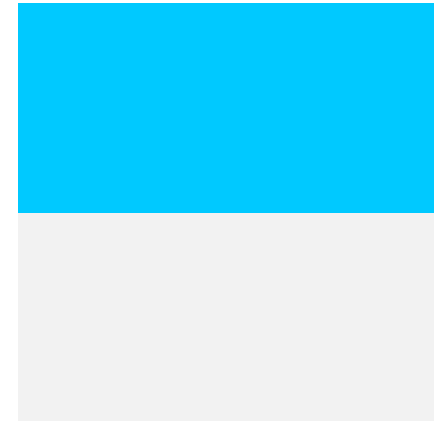

The increase in digital revenues expected by 2019 (double what it is now)

Of CEOs intend to increase tech investments in 2016

of revenues are under threat in the next five years

of executive committee meeting time is devoted to digitally enabled threats and opportunities

Microsoft: Digital Transformation

Engage
customers

Empower
employees

Optimize
operations

Transform
products

Microsoft – DXC Technology Global Alliance

Together. We thrive.

Digital transformation is both mandatory and inevitable. The digital revolution necessitates that business leaders embrace digital transformation to create new ways of connecting people, data, and processes to create value for customers. Building on a **30-year partnership**, we are leading the charge in this revolution.

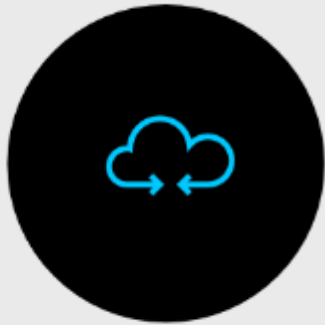

Partnering with Microsoft to Lead Digital Transformation

"Pursuing this mission means forging strong partnerships with leading organizations like DXC. We look forward to helping accelerate our mutual customers' digital transformations..." ¹
Satya Nadella

"Technology is transforming business and industry at an extraordinary pace, and DXC Technology will help clients to thrive on change." ²
Mike Lawrie
